- Nesbit Harris, KCP
- Michael Emery, ORNL
- Lynn Billman, NREL

DOE Advisor Robert Myers

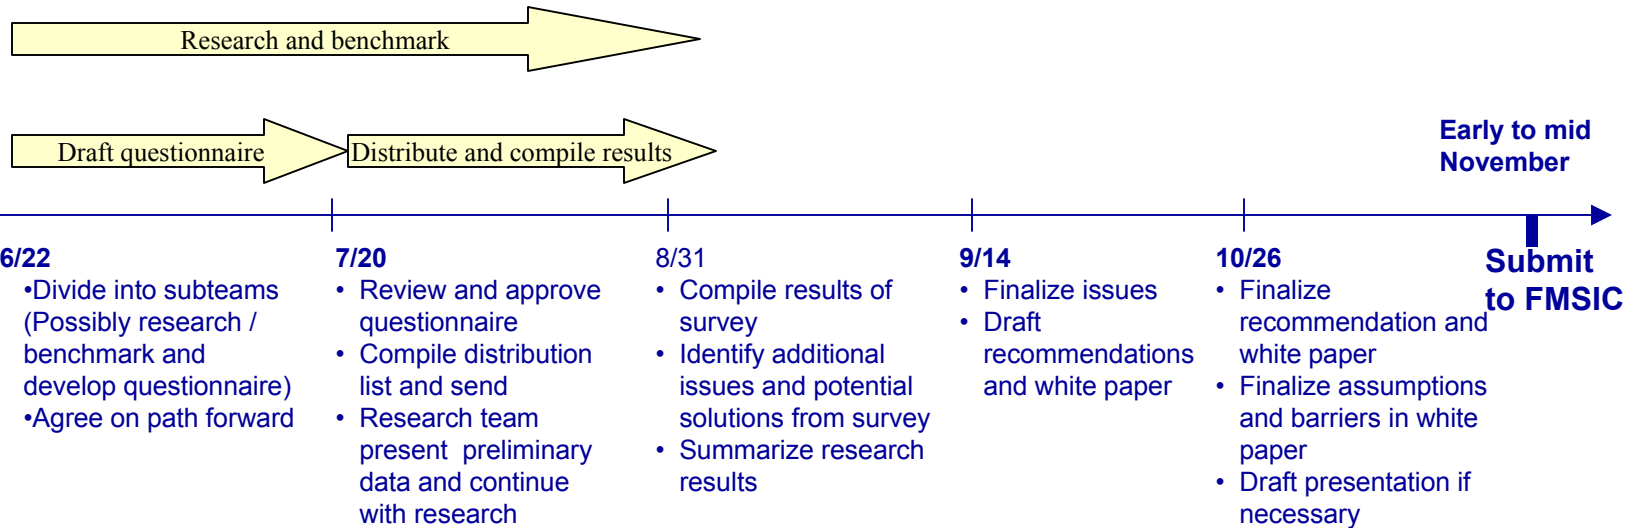

Objective & Status

- The working group will develop recommendations for FMSIC regarding the funding and accounting for capital equipment to ensure the Complex is equipped to perform its mission for the Nation (target November 2004)
- How do we get there?
 - Developed a timeline with activities (next slide)
 - The group has developed a questionnaire to facilitate data gathering
 - The group is benchmarking and conducting research in this area
- We need your help
 - If you do not have a representative on this team, please volunteer
 - A questionnaire will be sent to you through FMSIC next week - Please forward to the appropriate person and respond by August 20

FMSIC Capital Equip Working Group Timeline

FMSIC meeting to be held in Bethesda on November 16, 2004. The next all-contractors meeting is to be held April 19-21, 2005
